

# Community Profile: South Wairarapa District

Ethnicity	% across all ages (2018)
European	90.5
Māori	14.2
Pacific	2.2
Asian	2.5
Other	1.9

As of 2018, **14.1%** of young people aged 10-24 live in South Wairarapa District.

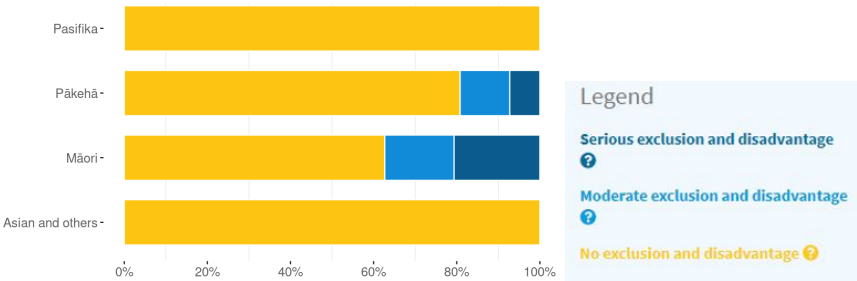

As of 2020, 23% of young people (12-25 years) were excluded and disadvantaged, of which 10% fell into 'serious exclusion and disadvantage', while 13% fell into the 'moderate' category. As age increases, young people are more likely to face exclusion and disadvantage. These rates are slightly higher for males (24.4%) than females (20.1%).

Exclusion and Disadvantage is measured across three areas: Care and Protection and Justice Systems; Education and Employment

Serious exclusion and disadvantage - young people experiencing this across all three areas

Moderate exclusion and disadvantage - young people experiencing this across two areas, including one high level interaction

No exclusion and disadvantage - who do not fall in the above two categories, but still may have had an isolated interaction with the police or been stood down from school
